FATALITIES COMPARED

Those on All the Railroads With Those in the Anthracite Fields.

A MINISTER SUBMITS SOME FIGURES.

Reverend Roberts Cross-Examined Before the Strike Commissioners. Trouble Adjusted at Independent Company's Mines.

Scranton, Pa., Nov. 20.—When the session of the strike commission began, Rev. Dr. Peter Roberts, a Congregational minister, was put on the stand again. Rev. Roberts has written a book on the anthracite coal industry. Answering a question propounded by Judge Gray, Dr. Roberts said that a comparison of fatalities on all railroads in the United States with those in the anthracite fields show that 2.5 per 1,000 railroad employees are killed annually, while 3.5 per 1,000 employed were killed in the anthracite industry. The question of arriving at a fair price on rock in connection with coal mining, Dr. Roberts said was one that could be adjusted only by the mine employees and the companies. He said it was far from the truth to characterize the operators as hard-hearted and unjust and as seeking constantly to grind men down to the last penny of wages, as had been charged. Dr. Roberts declared that the men in the southern anthracite district voted to stand by their brothers in the northern district on the question of insisting on the recognition and also on all other points raised in the Shamokin convention. Answering further questions by Mr. Wolverton, Dr. Roberts said he understood that dissensions had occurred between miners and their helpers, the latter claiming that the miners left them at an unseasonable hour and imposed on him the whole of the labor.

After reading from a lengthy article by Dr. Roberts in the Yale Review on the labor situation in the hard coal fields prior to the strike, witness said in elaboration of what he had written that by investigation regarding the laborers forming an independent organization, he found that movement was chiefly arising by the non-union men.

"If the conditions in the bituminous regions," inquired Mr. Wolverton, "are better than in the anthracite fields, why did the men who left the hard coal regions during the strike return to the anthracite fields after the strike?" The response was that they did so because for social and family ties. Dr. Roberts, in his examination, said the newspaper reports of violence had been greatly exaggerated. Mr. Wolverton read copies of abstracts of magazines which Dr. Roberts would not deny he had written, in which he described many acts of intimidation, violence and robbery. In explanation, Mr. Roberts said that these acts cannot all be attributed to the union and made a brief speech in which he said the operators refused to arbitrate, and the men were forced to strike to gain their demands. "They grow hungry in the struggle," he said, "and a hungry man is dangerous."

Rev. Mr. Roberts at one point said the union had bettered conditions in the anthracite fields.

The fact was brought out in the course of the cross-examination that the Pennsylvania legislature in 1891 passed a compulsory educational law applying to every child under 16 years old and that under its provisions parents of delinquents can be punished. David Willcox, counsel for the Delaware and Hudson company, next took Dr. Roberts in hand, and was cross-examining him on the inequality of wages and the life insurance risks when the commission recessed.

Miners Return to Work.

Hazleton, Pa., Nov. 20.—The trouble at the Cranberry and Crystal Ridge collieries of A. Pardee & Company, where the employees refused to return to work because they were asked to sign an agreement not to interfere with non-union men, was settled and operations will soon be resumed.

Instead of signing the agreement individually at the mines the men decided in a body to abide by its provisions and empowered a committee of their local to make written promise that all of the employees will comply with these conditions. All of the men but three, who are accused by the company of having been unduly active during the strike will be reinstated. The only collieries in this district where the difference have not been settled are those of Coxe Brothers and Company.

Bloomington, Ills., Nov. 20.—Rather than further inconvenience the public the street railway management decided to give the employees all they asked for and the strike was declared off.

HOMEWARD BOUND.

Incidents of President Roosevelt's Trip to Washington.

Asheville, N. C., Nov. 20.—When President Roosevelt awoke Thursday his special train was in the mountains of east Tennessee, homeward bound. The train had just stopped for water at Stevenson, a small place 40 miles west of Chattanooga, and the school children and half the population were at the station. The president heard their calls and came out of his state-room in his stocking feet to say good morning. An amusing incident occurred at Memphis just before the train left. Henry Tracey, one of the local characters of Memphis, who had followed the president's carriage all day, set off a lot of red fire in the station and when the illumination was at its height, presented the president with a box of roses. "Take these to the White House," said he, "and give them to your superior officer, Mrs. Roosevelt." The president laughed heartily and promised to do so. The train reached Chattanooga on time and stopped five minutes to change engines. There was quite a crowd at the station. The president left the train and shook hands with a number of friends who were there to greet him.

Saloonkeeper's Mistake.

New York, Nov. 20.—A verdict of \$1,500 damages has been awarded by a jury in the circuit court at Newark, N. J., against Thomas E. Carr, who on last Feb. 12, shot Theodore Ferree, a railroad brakeman, mistaking him for a highwayman. Carr has a saloon in Frelinghuysen avenue, Waverly. There was a wreck on the Pennsylvania railroad, and Ferree ran to Carr's saloon to get some whisky. The proprietor had been a victim of robbers, and catching a glimpse of the bottle, which he mistook for a pistol in the brakeman's hand, suspected another attempt at a hold up. Securing a revolver he fired twice before discovering the error. Both bullets took effect and the brakeman sued on the ground that he was so crippled that he cannot pursue his former vocation.

The Father's Story.

Indianapolis, Nov. 20.—James McFarlane, father of Florence McFarlane, who was killed, it is alleged, by Mrs. Frank Young at Syracuse, N. Y., Monday, learned of his daughter's death upon his arrival here. Mr. McFarlane, who is a traveling man, said his daughter and Frank Young had been infatuated for some time, and that he had warned the latter to cease his attentions to Miss McFarlane. Mr. McFarlane was preparing to telegraph her a birthday present when the news of her death was broken to him. He declared that Mrs. Young and his daughter had been intimate friends, but denied that the latter was a music teacher.

A Missing Student.

New York, Nov. 20.—Consular and detective agencies of Europe are endeavoring to discover the whereabouts of Frederick C. Johnson, son of Colonel Edmond Johnson, a wealthy citizen of Vineland, N. J., who disappeared three months ago. Johnson is a nephew of the Princess Agnes Salmon-Salm of Bonn, Prussia, who is well known in Chicago, where her sister, Mrs. I. H. Rea, resides. He was a student at the University of Pennsylvania and after finishing his studies there had taken a course at the Darmstadt university. On Sept. 1 he started from Bonn for Vineland. That was the last his relatives ever saw of him.

Embezzlement Alleged.

New York, Nov. 20.—William Malcolm, secretary of the Passaic Mutual Loan and Building association, who died presumably to Europe three months ago, has been indicted three times, charging him with misappropriating more than \$150,000. When the irregularities in Malcolm's accounts were first discovered, he claimed they were due to an error in book-keeping made by his predecessor 20 years ago. He turned over his home to the association and received much sympathy in view of his sacrifice, but later developments caused him to leave the city.

Exclusive Summer Resort.

New York, Nov. 20.—George J. Gould, Henry C. Frick and other capitalists in this city, Philadelphia and Pittsburgh, are believed to be contemplating the establishment of a new and exclusive summer resort on Two Mile Beach island, three miles north of Cape May City on the New Jersey coast. Application will be made at once to the state riparian board of New Jersey for rights on seven and one half miles of water front. Work will begin as soon as necessary rights can be secured.

Rockland, Me., Nov. 20.—An American schooner which will be registered in the Philippines, was sold here. She is a three-master and is ready for launching.

HE MADE NO CHARGES

Shaffer Denies That He at Any Time Questioned Gompers' Fidelity.

FEDERATION EXONERATES ITS HEAD.

Socialist Resolution Causes Extended Debate, in Which Considerable Feeling Is Shown—Proceedings of the Day.

New Orleans, Nov. 20.—President Gompers has been completely exonerated of charges of infidelity to the principles of trades unionism said to have been made by Theodore J. Shaffer, president of the Amalgamated Association of Iron, Steel and Tin Workers. The report of the special committee which had conducted the investigation reported to that effect before the convention of the American Federation of Labor. The charges against Mr. Gompers fell as flat as a piece of dough dropped from the clouds. The committee reported that when Mr. Shaffer appeared before it he declared that he had not at any time, either in writing or otherwise, made any charges against Mr. Gompers of infidelity to trades unionism, nor did he desire to before the committee.

For the time being at least, all opposition to the election of President Gompers has died out. Since the refusal of James Lynch of the Typographical union to run for the office, no effort is being made to secure a candidate, nor is it likely at the present time that there will be a rival candidate.

The convention then entered upon an extended debate in which at times considerable feeling was shown, on the resolutions introduced by Victor L. Berger of Milwaukee, committing the convention to the doctrines of Socialism. The committee on resolutions reported, as a similar committee had reported at the Scranton convention of last year, that the principles of the trades union movement contain all that is necessary at the present time for the advancement of the workingmen of the country.

Delegate Max Hayes offered a substitute for the report of the convention to the effect that the Federation advise the working people to organize their economic and political power to secure for labor the full equivalent of its toil and the overthrow of the wage system and establishing an industrial co-operative democracy. The substitute was ruled out of order by the chair as being a substitute for the report of the committee which was a substitute for the original resolution. Delegate Hayes then offered it as an amendment and it was so admitted by the chair.

Delegate Wilson proposed to amend the amendment by striking out the words "and the overthrowal of the wage system and establishing an industrial co-operative democracy." Delegate Hayes declared this acceptable to him, but no action was taken and the debate proceeded.

John Hancock Estate.

Boston, Nov. 20.—An attorney of the city has filed a petition asking that he be appointed administrator of the estate of John Hancock, the revolutionary patriot. John Hancock, late in the 18th century was to some extent an underwriter, taking insurance risks in vessels out of the port of Boston at the time when relations between France and this country were strained. Some of the vessels so insured by Hancock were captured by French privateers and condemned in the French prize courts. The underwriters then had to pay the insurance, and Hancock, like many others, was a loser in this way. The purpose of the appointment of an administrator is to recover from the United States the money which John Hancock was compelled to pay.

Mayor Johnson Enjoined.

Columbus, O., Nov. 20.—The supreme court has enjoined Mayor Tom L. Johnson of Cleveland and his subordinates from reorganizing the police department of that city. The court reinstates the five police captains retained by Johnson, orders the reinstatement of Chief Cormer and forbids any further changes whatever in the police force of that city. The petition charges Johnson with engaging in a conspiracy to reorganize the police force of Cleveland.

Seattle, Wash., Nov. 20.—The Pioneer Mining company, headed by E. C. Lindeblom, Jefet Lindeblom and other Alaska capitalists, announced, after a meeting of the mining company, that they will construct a railroad from Nome to Council City, which will be in operation at the end of next season. The season following it will probably be extended to Salmon river and Cada de Paga.

STONED BY A MOB.

Unionist M. P.'s Harrowing Experience in City of Belfast.

Belfast, Nov. 20.—Mr. Russell, the Unionist member of parliament, was stoned by a mob after he had addressed a meeting at Dromore. The rioters attacked the hall where Mr. Russell had made his speech and caused him to seek refuge in a neighboring house, whence he tried to escape in a carriage. The mob discovered him and bombarded the vehicle with stones. Mr. Russell was struck on the head, but was not seriously injured. Russell, Liberal Unionist member for South Tyrone, began another land campaign near Belfast early in October. He declared that 80 per cent of the landlords were ready to sell their land under a fair scheme and suggested a new basis for land purchase, under which the state would give \$50,000,000 for the benefit of the landlords. Mr. Russell is opposed to home rule for Ireland.

Nicaraguans Again Active.

Washington, Nov. 20.—The check in the negotiations with Colombia relative to the Panama canal has given great encouragement to the friends of the Nicaragua project. The first evidence of renewed activity on their part was the appearance at the state department today of the Nicaraguan minister to Washington. Secretary Hay has never taken the ground that the negotiations with Nicaragua and Costa Rica were terminated by the passage of the Spooner act. Secretary Hay may proceed to draw up a treaty with Nicaragua and Costa Rica on the lines of the protocols laid before the last senate and submit it to the senate at its next session along with such treaty with Colombia as he may be able to conclude. In this way the senate itself might decide whether or not the Colombian treaty is satisfactory.

King Leopold's Reply.

Brussels, Nov. 20.—King Leopold made a somewhat striking reply to a deputation from the chamber who presented his majesty with an address of congratulation on his escape from the anarchist's bullet. After thanking the deputies, the king continued: "The times are very troubled. Agitators are constantly stirring up their followers to disturb that order which is the guarantee of public liberties. These agitators find in their path firstly the heads of states. If they fail to reach them, they attack their wives as in the case of the horrible drama at Geneva. Their blows are also aimed at ministers as in the case of Senor Canovas and they also blow up the houses of private individuals. They want to intimidate us, but they will not succeed."

Sympathetic Strike Threatened.

Schenectady, N. Y., Nov. 20.—Another and more serious development of the boycott instituted against the Schenectady Railway company by the local trades assembly came to light in the possibility of action by the Amalgamated Association of Street Railway Employees of Albany and Troy, looking to the endorsement of the action of the Schenectady labor body. The statement is made by an official of the Amalgamated Association that the body will positively refuse to allow the cars of the Schenectady railway to enter the city of Troy as long as there are non-union men aboard them.

Portsmouth Plant Absorbed.

Pittsburg, Nov. 20.—The Harbison-Walker Refractories company has closed negotiations for the absorption of the Portsmouth-Kentucky Fire Brick company at Portsmouth, Ohio. The price paid for the plant was, it is said, close to \$2,000,000. This is the plant the company desired to purchase to complete the original plans of the corporation when it was organized, and for which an increase in the capital stock from \$25,300,000 to \$27,600,000 was made a few days ago.

American Woman Killed.

Paris, Nov. 20.—Helen Gore, said to be an American, was killed by a revolver shot in an apartment where she lived with Jean De Rydenaki, an actor of the Imperial theater of St. Petersburg. De Rydenaki at first said Miss Gore committed suicide, but subsequently he declared the revolver went off accidentally.

Trial of Rubino.

Brussels, Nov. 20.—A warrant for the committal of Rubino, the anarchist, has been officially confirmed. The would-be assassin will be tried on two counts—an attempt on King Leopold's life and a homicidal attempt on the lives of the court officials who were in the carriage at which Rubino fired.

Postoffice Robbed.

Warren, O., Nov. 20.—The postoffice at West Farmington was robbed by safe crackers, the thieves getting eight dollars and some stamps. One of the robbers, it is believed, was caught here and is now in jail. He refused to give a name.

TEN PERSONS MISSING

Fire at Frisco Devours a Huge Freight Depot and Ferry Slips.

LOSSES NEARLY HALF A MILLION.

Number of Employees Thought to Have Perished in the Blaze. Destruction Wrought by Flames Elsewhere.

San Francisco, Nov. 20.—The Southern Pacific depot and ferry slips at the end of the Alameda mole, which extends far into the bay from the eastern shore, were totally destroyed by fire. A large number of passenger coaches were also burned and it is said that several lives have been lost. The fire broke out from some unknown cause soon after the ferry boat Oakland had reached the slip on her last trip from this city. The kitchen crew of the steamer had retired to their lodgings in a small structure near the end of the pier. Suddenly the flames burst out, quickly spreading through the depot, a big building of wood and glass. The upper works of the Oakland caught fire and her captain was forced to cut loose and leave her men behind. They may have escaped, but have not yet been heard from. Everything on the broad extension of the pier was soon totally consumed.

Train Dispatcher Walker estimates the loss at from \$450,000 to \$500,000. The sides of the slips and buildings, eight broad gauge passenger coaches and 25 narrow gauge coaches were burned. The ferry steamer Encinal, which was moored to the mole, was towed to a place of safety. The number of men missing is 10.

The depot was the terminal for trains to Santa Cruz and also for the trains for Oakland and Alameda. The depot was constructed on filled-in ground, studded by piles. During the last year, the Southern Pacific has expended many thousands of dollars in repairing the approaches to the mole and the wharf proper. The ferry buildings proper covered several acres and contained the well-fitted offices of the railroad operatives.

Destructive Fire.

Monongahela, Pa., Nov. 20.—A block and a half of property was almost entirely destroyed, several persons had narrow escapes from cremation and \$125,000 worth of damage was done by a fire which started on Main street in the business section of this city. A number of families who were rendered homeless, lost their clothing and barely escaped with their lives. The principal sufferers are: Charles E. Towner, department store; W. Packard, residence; Philip House, residence; F. Beabout, furniture and undertaking; F. Davis, confectionery; P. Denas, fruit and confectionery; A. D. Scott, grocery; Benson & McLaughlin, restaurant; J. Yohe, meat market; William Markell, drugs and cigars; several tenements and stables.

Lost Her Life.

Fond Du Lac, Wis., Nov. 20.—In a fire which destroyed the Philip Rothger saloon, Mary Cotter of Montello, lost her life. The remains were found on the floor of the wine room burned almost beyond recognition. The woman was apparently the only occupant of the building.

Hotel Burned.

Denver, Colo., Nov. 20.—News from Monte Vista, Colo., says the Hotel Blanco has been destroyed by fire. The loss is \$75,000. The building belonged to the Travelers' Insurance company.

Work of an Assassin.

Denver, Nov. 20.—News has reached here of the shooting of A. L. Collins, general manager of the Smuggler Union mine at Pandora, near Telluride, Colo., by an unknown assassin who fired with a shotgun through the window of the company's office at Pandora. The charge struck Collins in the back, making a wound that is likely to prove fatal. Mr. Collins was manager of the mine during the strike of 1901, when a riot occurred in which several men lost their lives. It is believed that the shooting of Collins is the result of animosity engendered then, though there is no clue to the man who fired the shot.

Heidelberg Students Shot.

Tiffin, O., Nov. 20.—Edward Zechiel of Cuivers, Ind., and Roy Seachman of Marion, O., members of the freshman class in Heidelberg university, were seriously wounded by a shotgun in the hands of a member of the sophomore class. The freshmen attempted to steal the conveyances of the sophomores, who were holding a class party several miles in the country, and were met by the sophomores with the above result.

The price of all kinds of stoves is to be raised 10 per cent., the third increase since January. Manufacturers say this is necessary because of the increase in price of raw material and—just think of it—the "advance in wages." Some of these big corporations will cripple themselves paying employees big wages if they don't watch out.

JOHN D. ROCKEFELLER is reputed to be the richest man in the world, and from incomplete figures, gathered from many sources, and with allowances made for exaggerations, there is every reason to believe that this contention is true. Mr. Rockefeller's income is said by his friends to be \$100,000,000 a year. The figures that have been gathered show an income of about \$67,332,000. As Mr. Rockefeller is very secretive about his own affairs, it is hard to get any more than an estimate of his holdings. For instance, it was discovered only by accident that his 83,000 shares of preferred stock of the U. S. Steel Corporation were carried in the name of one of his private secretaries. Many of the companies in the list given are controlled by Mr. Rockefeller, the Standard Oil absolutely, Mr. Rockefeller owning \$40,000,000 of the \$101,000,000 of the stock of the company. In the last three years from this one company he has received in dividends \$5,000,000.—New York News.

Still he is not content with his millions, but is using the power his wealth gives him to extort money from the people to add to his colossal fortune. The price of oil has recently been advanced, and it is probably higher now than for years.

"PROGRESS OVER A PRECIPICE."
"The cry of the people of the West is rising almost to an ominous threat of revolution," declared Prof. Benjamin F. Terry, of the University of Chicago, Wednesday while discussing "Modern Problems in the Light of History" before students of the junior class. "The wealth of the country has increased enormously," said Prof. Terry, "but it is becoming concentrated in the hands of comparatively few individuals. Only in the days of the early Empire and late Republic of Rome was it possible for individuals to amass in a few years such enormous fortunes as they do in this country to-day. Having exploited the wealth of the great middle class, we are now drifting into the second stage. It may be progress, but it is progress over a precipice."

Small investments no longer pay. The small manufacturer is no longer prosperous. As a result there is not an Eastern nor a Western State that has not a score of stranded towns or villages once prosperous in small industries.

The small farmer is no longer able to earn a living in competition with the man who does his farming by telegraph, and whose huge farms of 60,000, or even 80,000, acres produce annual dividends to stockholders."

These are not the wild ravings of some anarchist or stump speaker, but were uttered by a member of the faculty of one of the largest schools of the country. They deserve thoughtful consideration.

River News.

The steamers Lillie Bay and Courier have alternate days in the Portsmouth trade.

The steamer New South has been sold to a rich company in New Orleans to be used as an excursion boat. She will be remodeled and practically rebuilt so as to be second to no other excursion boat on the river.

The steamer Helen M. Gould is on the Marine Way to receive a new hog chain and some general repairing. It will be three or four days before she will be let into the river, when she will immediately re-enter the Portsmouth-Cincinnati trade.

John Zimmer, father of Charles Zimmer a well-known baseball catcher, is dead at Ironton.

Morris Frankel and William Winkle, who left New York some months ago without a penny, for a tramp encircling the globe, are in Maysville to-day and will leave this evening for Cincinnati. They are paying their way by lecturing, selling their photos and by writing for papers.

In the Circuit Court Thursday, the divorce suits of James P. Ingram against Lula M. Ingram, Rebecca J. Clary against Charles Clary, Margaret Moran against Henry Moran, Anna N. Dora against Carlton Dora and Lizzie Washington against John Washington were discontinued.

FURS—An Opportunity

These are not regular furs because bought irregularly—cheaply. As we buy we sell. It is only because the store's policy demands the telling of good news that we speak of these. There is no need to advertise them to hurry their selling. The trouble will be to supply the demand. Now, plenty. Very pretty dyed Opossum Fur Scarf, finished with six tails—\$2.50 and well worth a half more. Splendid new style barrel Muff to match, \$1.50 instead of \$2.50. Fluffy, rich black Martin Boa with 6 tails, \$5. You can't duplicate it anywhere under \$7. Black Martin Boa, 1½ yards long, 8 large tails, very stylish, \$7.50. Better can't be bought for \$10.

Umbrellas For Men and Women, \$1.50.

The handles are taken from salesmen's samples and in many instances exceed in value the price we ask for the Umbrella. The covering is excellent union taffeta silk, which we guarantee for a year. The frame is the Paragon, the rod steel and there is a neat case with tassel. The handles include imported Yak horn highly polished, pearl with silver trimming, ivory with silver or gold mounting, natural hard woods—acacia, furze, boxwood and Congo. Unimpeachable quality, broad variety and small price—three satisfying facts.

The Harbison-Walker Refractories Company has closed negotiations for the absorption of the Portsmouth-Kentucky Fire Brick Company at Portsmouth. The price paid for the plant was, it is said, close to \$2,000,000. This is the plant the company desired to purchase to complete the original plans of the corporation when it was organized and for which an increase in the capital stock from \$25,300,000 to \$27,600,000 was made a few days ago.

In the Circuit Court Thursday, the divorce suits of James P. Ingram against Lula M. Ingram, Rebecca J. Clary against Charles Clary, Margaret Moran against Henry Moran, Anna N. Dora against Carlton Dora and Lizzie Washington against John Washington were discontinued.

These are not the wild ravings of some anarchist or stump speaker, but were uttered by a member of the faculty of one of the largest schools of the country. They deserve thoughtful consideration.

The steamers Lillie Bay and Courier have alternate days in the Portsmouth trade.

The steamer New South has been sold to a rich company in New Orleans to be used as an excursion boat. She will be remodeled and practically rebuilt so as to be second to no other excursion boat on the river.

The steamer Helen M. Gould is on the Marine Way to receive a new hog chain and some general repairing. It will be three or four days before she will be let into the river, when she will immediately re-enter the Portsmouth-Cincinnati trade.

John Zimmer, father of Charles Zimmer a well-known baseball catcher, is dead at Ironton.

Morris Frankel and William Winkle, who left New York some months ago without a penny, for a tramp encircling the globe, are in Maysville to-day and will leave this evening for Cincinnati. They are paying their way by lecturing, selling their photos and by writing for papers.

SHOT HIMSELF.

Business Reverses Leads Husband of Miss Julia Leach to Take His Life.

CHATTANOOGA, TENN., Nov. 20.—Charles C. Anderson, a prominent business man, committed suicide this morning by shooting himself in the head.

Anderson recently filed a bill in bankruptcy showing large liabilities and practically no assets. His creditors were to meet at 10 this morning to take steps to attack the petition.

Anderson left home shortly before 7 o'clock, and a short distance away shot himself. He leaves a young widow.

He had been in the paving business here and had operated extensively in Middle Tennessee oil lands.

Mr. Anderson married Miss Julia Leach, daughter of Mr. and Mrs. C. S. Leach formerly of this city, during the past year.

Suit was filed at Flemingsburg this week by the Eastern Kentucky Lunatic Asylum against John J. Key and his committee, Charles M. Fleming, Sr., for \$750, being \$150 a year for the past five years for keeping said Key, who was sent to the asylum in 1872. There is plenty of funds in the hands of his committee to pay the claim, but he prefers to pay out the money only on a judgment of a court of competent jurisdiction.

Miss Ida Lyon-Wood, formerly of this county, and Mr. Harve Reece Moore, of Marion, Ind., were married Tuesday afternoon at 3:30 o'clock at the home of Mr. and Mrs. A. K. Lyon in Lexington, Rev. Llewellyn Humphreys officiating.

"NATHAN HALE" TO-MORROW NIGHT.

Delay at Cincinnati Caused Canceling Last Night's Date But Company Will Appear Here Saturday Night.

It was with the sincere regret of both the management of the Howard Kyle Company and the management of the opera house that the audience had to be dismissed last night.

On account of a railroad delay in Cincinnati the company could not get their baggage car loaded in time to attach it to the train arriving here at 5:25 p. m. and the officials would not hold the train to complete the loading. It was 8:30 p. m. when the train arrived and it was thought possible to begin the performance by 9:30 p. m., but the hustling of all concerned was without avail, for the audience was dismissed just as the huge trucks loaded with scenery and effects arrived at the theater.

Mr. Kyle, Manager Sackett and the local management consulted together,—it was decided to cancel their Saturday town and play here, for Mr. Kyle is anxious to appear before a Maysville audience, and Russell, Dye and Frank are equally as anxious for their patrons to see Mr. Kyle's production.

So to-morrow night turn out and see this really excellent company, and show the local management you appreciate their efforts to give really first-class performances.

Sam'l of Posen's Brother.

M. B. Curtis, who is undoubtedly the foremost impersonator of Jewish characters on the stage, will present at the Washington Opera House on Thursday, Nov. 25th, his new play, "Sam'l of Posen's Brother," a comedy-drama in three acts from the pen of Herbert Hall Winslow.

The new play is said to be a worthy successor to Curtis' great triumph, "Sam'l of Posen," and the scenery and costumes used are picturesque. The first scene is laid on Ellis Island in New York harbor, and here Curtis will be seen as a young Jewish immigrant, who in a very short space of time gets into all sorts of trouble. The character he assumes, however, is totally different in every essential element from "Sam'l of Posen."

The Farmer's Wife

is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are exactly akin to the churning of butter. It is not apparent then that if this stomach churn in "sour" it sours all which is put into it? The evil of a foul stomach is not the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of the blood and the dissemination of disease throughout the body. Dr. Piere's Golden Medical Discovery makes the sour stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant and no narcotic.

MAYSVILLE, Nov. 18th.—Miss Mary Ford and brother, of Louisville, Miss Sallie Ford and Mrs. Kate King, of Maysville, were among those from a distance who attended the funeral of Miss Mary A. Heflin last Saturday.

Misses Mary and Eva Roherson and friend, of Maysville, were guests of Misses Mae Pogue from Saturday to Monday.

The Misses Wallingford and brother, of Nepton attended services at the Christian Church Sunday morning.

Miss Sadie Heflin, of Orangeburg, is spending the week here with relatives.

The protracted meeting at the Christian Church has resulted in two additions so far—Messrs. Henry Milton Pyle and Richard Payne.

Miss Mary A. Heflin aged twelve, died after a three week's illness of typhoid fever. Bright beyond her years and beloved by all who knew her, the sunshine of her presence told of the purity of the soul gathered home ere it was snatched by the sin or grieved by the sorrow of the world.

An obedient pupil, a loving schoolmate and friend, a devoted and dutiful daughter whose every heart throb was for home and those she loved. A vacant desk in the school room, an empty chair at home and an aching void in the hearts of her parents tell the story of unspeakable love which made the world better by its twelve years of existence. On Nov. 13th, the Death Angel answered the cry of this dear child to "Take me home," and softly breathed to her soul the sweet message, "This day though shalt be with me in 'Paradise,'" and she passed into the realms of eternal bliss. As she slept the last sleep in spotless purity amid the flowers she had admired and so often caressed, it seemed as if an angel's presence hovered near. Beautiful floral tributes from teachers, schoolmates, friends and relatives brought whispered words of consolation to the sorrowing parents of the joy of the silent sleepers in the Eden beyond the grave.

"They go, our loved ones pass away,
They sink into eternal rest;
We miss them many a weary day—
But God knows best, He knew best.

Hath not that place a clever store
Wherein our loved is a guest?

We love earth less and heaven the more,
Yes, God knows best, He knew best."

J. W. Reardon, a popular L. and N. engineer, residing in Cincinnati, and Miss Lulu Mullins of Lexington were married in the Latonia Hotel parlors, Covington.

FARMS FOR SALE.

I offer at private sale choice of several fine tracts of land, situated on Maysville and Lexington turnpike, two miles South of Maysville. The lands are strictly first-class—no better in Kentucky. The improvements are good and in fine repair. On one tract of 195 acres is a nice frame house of eleven rooms and two halls, a beautiful yard shaded by forest trees—in fact a lovely home such as is seldom found on the market. Here a large Tobacco Barn 84 by 48 feet, eight tiers high, with a large Cellar, a large Kitchen, a Laundry House, two-story Cabin for cook, and all other necessary outbuildings. It is well watered and has fifty acres in wheat, the balance in grass.

Also one tract of 100 acres, all in grass, or one of 243 acres, with fifty acres in wheat, the balance in grass—all adjoining, and of the same high grade lands—well improved and under a high state of cultivation. Terms to suit purchasers. Call and see us if you desire to purchase a nice home and a fine-class farm.
